### Progress/Grades

Clara Science Academy reports student performance quarterly. Students in Middle School are expected to work daily based on Teachers' lessons and assignments. These assignments are evaluated and a grade score based on the grading system below is determined. Appropriate academy progress and achievement is reflected in completion of expected progress and mastery of concepts and skills assessed based on submitted assignments and classroom performance. Both submitted assignments and classroom performance will be taken into consideration when determining student promotion.

On the second page of this report, you will find your child's course grade and teachers' comments. Please remember, at the end of the school year students must have demonstrated mastery based on final grade. These grades are considered when determining a student's readiness for promotion.
